

Tonywood Productions LLC is hiring! Please read the job description below and send a cover letter and resume and any questions to hello@tonywoodproductions.com so we can have a look.

First, a little history...

Tonywood was founded in 2014, as a boutique video production house specializing in creative video solutions for applications across the aerospace industry. Today, amidst exciting growth, Tonywood produces really cool videos for really cool companies. With a continued focus in aerospace promotion and training, Tonywood has also extended their services to a diverse range of clientele for projects in the law enforcement, medical, agricultural and finance industries. The company has built a solid reputation in the Twin Cities of Minnesota, for harnessing the latest technologies for video production to create vibrant, modern, impactful videos at a very competitive price point. Tonywood produces videos for companies large and small, guiding the entire process from pre-production to final delivery and providing all creative services under one roof, which includes photography, editing, finish editing and custom graphic design, branding, logo development and animations. At Tonywood, we love great video, we understand its potential for having a huge impact in competitive markets and we're tired of the same old talking head with pictures behind it. We constantly wrack our brains to come up with the latest creative solution to complex challenges...we're just the right amount of obsessive, to the client's benefit.

For samples of our work, check out our website. If you have a great attitude, a love for everything production, are excited to be part of an exciting startup with a ton of potential and think you can do stuff like this, then we need to talk: www.tonywoodproductions.com/projects

hello@tonywoodproductions.com

Position Available: Digital Production Specialist / Full Time

Start Date: ASAP

Salary and Benefits: Negotiable

Location: Bloomington, MN

Job Statement:

Tonywood is looking for a motivated person to work in a dynamic production environment, creating cutting-edge digital video and interactive tools for use in promotion and technical-education applications. The applicant should expect to work creatively on projects across a diverse range of industries and content areas but with a focus in technical production for the Aerospace industry. The job will require the employee to be flexible, be willing to learn to work with new software and hardware and exhibit a skill-set sufficient to help with the full production flow. This skill set may include scripting, camera operation, lighting, grip work, video editing, image editing, animation and other post-production responsibilities.

As a requirement of this position, the applicant must be willing to travel, willing to work occasional odd hours including weekends and holidays as necessary to meet deadlines, and comfortable working in different small and large aircraft during flight operations. The position will be based at the Tonywood Studio in Minneapolis, MN.

Key Duties:

- Collaborate with the Production Manager and client in creative development of scripts and storyboards
- Work with clients as a consultant throughout all production phases
- Consult in technical aviation content areas sufficient to produce videos and animations for aviation
- Execute production tasks including camera operation, lighting design, talent management, script supervision, logistics and equipment setup and any task directed by the Production Manager
- Creative digital video editing while working alone, and in collaboration with the Director
- Basic sound editing, sweetening and final mixing
- Basic digital video color correction
- Image editing
- Graphic design and animation
- Video exporting and digital authoring for web and broadcast
- Digital video transfer, transcoding and archival maintenance

Requirements: *(For the Ideal Candidate. Bold items are hard requirements)*

Qualifications:

- ▶ Preferred college degree
 - ▶ 2 years experience in a digital video production position
-

- **Strong written and verbal skills**
- **Ability to manage and edit several projects concurrently (multi-tasking)**
- **Self motivated, comfortable working on a fast-paced schedule independently and in collaboration with a group**
- Fluent with the following software applications:
 - ▶ **Mac OSX**
 - ▶ **Apple iOS**
 - ▶ **Apple Final Cut X**
 - ▶ Apple Motion

- ▶ Apple Compressor
- ▶ **Adobe Photoshop, Illustrator**
- ▶ Adobe After Effects
- Bonus Skills:
 - ▶ Development experience (html, javascript, java, cocoa, cocoa touch (iOS), Objective-C, ruby on rails, etc)
 - ▶ 3D modeling and design experience with applications such as: Cinema 4D, 3DS Max, Blender etc)
 - ▶ Development experience in Mobile platforms, specifically for iOS and Android platforms

** Tonywood Productions, LLC is an Equal Opportunity Employer*
